Banked Hours

Almost every business has a busy time and a slower time. You might need more edits and changes done on your site some months (for special events, marketing, etc.) than others. We will bank any unused hours from your maintenance package into the next month up to 3 months. For Example: If you have a small business web maintenance package and only use 2 hour in the 1st. month, and then 2 hours in the 2nd. month, you can bank unused hours and transfer total 2 hours to 3rd. month. Hours will not roll over to the fourth month.

*Website updates consist of: Addition, Subtraction, and Editing of all text, images, videos, audio, multimedia and other types of content on an existing website. Addition includes creating and linking to a menu, a new page with new content. Subtraction includes removing any pages, and their menu links from your website, whether to be used again at a later date, or permanantly removed. Editing consists of changing existing text on any page, and updating all menu items and or links for that page.

*Our website specialists are very good at what they do and can get alot of your udpates completed in a short amount of time. Therefore, it is best to speak with us before choosing a package, we can review your website, and your past updates and tell you which package will best suit your needs.
